Holdridge Farm Nursery

Route 27

LEDYARD, CONNECTICUT

P. O. Address

GALES FERRY - LEDYARD, CONN.

R. D. 2

Telephone Ledyard Division

INGersoll 4-7020

(No toll charges from Norwich, New
London and Mystic Division)

Hello Folks:

We hope that we will see you many times this year at our garden store. We will try to keep a large supply on hand of those garden needs which you are going to want as the season progresses.

We are doing our best to keep up with all the new developments in the garden field, such as new varieties, newer disease and insect controls and new methods to make your gardening less work, more fun and more profitable to you.

And, as always, we will be perfectly honest in giving you our opinions as to the relative merits of the many advertised products in our field.

Good luck and good gardening in '57,

From — THE HOLDRIDGE'S

LOCATION

The Holdridge Farm Nursery is located on Route 27 in the town of Ledyard, about 5 miles from Norwich and about 12 miles from New London.

From Norwich, take Route 2 (the Westerly Road) for about three miles —turn right onto first state highway, following Ledyard signs—drive about 1 mile and bear left onto Route 27 and drive 2 miles.

From New Haven and New London — cross the Groton-New London bridge and follow Route 84 for about 5 miles — turn left and follow Route 27 (Col. Ledyard Highway) for about 6 miles. (Two miles past Ledyard Center.)

From Rhode Island points — Go to the Rotary intersection of Route 84 and Route 2 — follow Route 84 towards New London about 7 miles — then turn right onto Col. Ledyard Highway (Route 27) — We are about 6 miles from Route 84. (Two miles past Ledyard Center.)

Located on the Big Hill.

BUSINESS HOURS

Our nursery is now open six days a week from 8:00 A.M. until 6:00 P.M.; Sundays, 9:00 A.M. until 6:00 P.M. During April and May, only, we stay open evenings until 8:00 P.M.

PRICES

All prices of nursery stock and garden supplies quoted here are subject to the Connecticut Sales Tax when it applies. All prices are subject to change if necessary to meet higher costs.

OUR GUARANTEE

We guarantee to furnish stock in good condition, up to grade and specifications. If your order arrives in damaged condition, report to us immediately. We will adjust complaint or refund your money.

We cannot guarantee livability after stock arrives on your farm as so many factors may be the cause. We will, upon proper proof, replace free all trees, etc., which may prove untrue to name or refund the price paid but we give no further warranty.

We do not guarantee balled and burlapped evergreens.

Our nursery is inspected yearly by an authorized State Inspector and a copy of our certificate accompanies each shipment.

SHIPPING

Please call for your order whenever possible. When orders must be shipped, please add 20% for packaging and postage.

Please give instructions in your order how we should ship. If no instructions are given, we will ship as is best in our judgment.

We will ship as near as possible to the date which you ask for but can not guarantee shipment on exact dates requested because of weather and other conditions beyond our control.

If no date is given, we will use our judgment as to the best time to ship your particular order to the area in which you live.

STRAWBERRY PLANTS

The Holdridge Farm Nursery started years ago as a strawberry plant farm and we have continued to specialize in this crop even though our business has grown and we now sell nearly every type of nursery stock grown in this area.

The sandy loamy soil of this area seems to be ideal for the production of the long, fibrous roots which make our plants so attractive.

We were the first plant grower in New England to have large amounts of Virus-free strains of strawberry plants for sale. Now virus free strains of plants are recognized by everyone for the improvement they have made.

This year we raised nearly all our plants on a new farm which we recently purchased and on which strawberry plants had never been grown, as far as we can find out. This field was all treated chemically to control root eating insects and this is a wonderful looking field of plants.

WEED CONTROL — Holdridge Style

Keeping the weeds under control in our four acre field of strawberry plants has been a problem to us as well as to nearly every other grower. Most chemical weed controls work on the basis of killing broad leaf weeds; or, like Crag, of preventing the sprouting of weed seeds. Our main problem has been grass, known locally as durfy grass or witch grass which spreads underground and was not controlled by either Crag or other chemicals.

This year we purchased 20 geese and put them into our strawberry patch and the saving on labor was tremendous. The geese kept the field clean of grass and most kinds of weeds, although there were a few varieties of weeds which they refused to touch.

If your bed is large enough, it may pay you to consider geese.

COLD STORAGE BOX

We have purchased a cold storage box for our strawberry plants. We dug and trimmed 40,000 plants in late November and placed them in our storage. We hope that our new facility will enable us to keep the plants that we dig daily in the spring in better condition for your purchases.

WHO SHOULD RAISE STRAWBERRIES?

Each spring we have many people ask us if we feel that they should raise strawberries. We feel that strawberries are probably the most satisfactory crop which a home gardener can raise. The average family should plant from 50 to 200 plants each year and if these are well cared for, they will have all the berries they can eat and some to sell.

Strawberries are a good crop for families to raise for an extra cash crop, especially if there is enough help available within the family to pick the berries.

We cannot honestly recommend that anyone plant more than a couple thousand plants unless they have had previous experience in caring for, harvesting and selling their berries.

STRAWBERRY CULTURE

CHOOSING THE PLOT—Strawberries will do well on good, fertile, well drained ground, which is slightly acid. An application of Chlordane will kill any Jap beetle grubs which might be in the ground.

FERTILIZING—Application of cow manure to the plot before planting is good. If commercial fertilizers are to be used, apply it around the plant (not closer than six inches) after they are planted. This can be repeated from two to four times during the growing season.

WHEN TO PLANT—We recommend planting just as early as possible in the spring and before May 15 if possible. We do not like planting at any other time of the year.

SETTING OUT PLANTS—The roots of the plants should be well spread and never bent. The plant should be at ground level with all roots covered and with the heart of the plant above the ground. Press the plant firmly into the ground. Wet roots before planting. Do NOT put fertilizer in the ground when planting.

SPACING—Set plants from 12" to 18" apart in rows and with rows from three to four feet apart.

CARE OF BEDS—Keep the ground hoed and the weeds under control. Pick the blossoms during the first season. On everbearing varieties, pick blossoms until about July 4th.

WEED KILLERS—The use of Crag, to prevent weed growth in strawberries was quite successful last year when it was used widely. This chemical prevents the germination of seed and will destroy weeds while roots are still very small. Weeds more than ½ inch tall will not be hurt nor will grasses. Two pounds of Crag per acre are required for one application. About three sprayings per year will suffice. Complete directions are on each package.

SPRAYING—An increasing number of strawberry growers are spraying their growing beds to control spot disease. We do not feel that this is necessary for small growers but bad cases of leaf spot will mean lower yields the following year. The same type of copper spray (e.g. Bordeaux) is used for strawberries as is used to combat blights on potato vines.

Plant lice or aphids which spread the virus disease, can be controlled by the use of a Malathion spray. Commercial growers should check with their County Agent for best chemicals to use for their own particular equipment and conditions.

MULCHING—We recommend mulching strawberry beds lightly during the winter with straw, marsh hay or weed free material. Rake the straw between the rows early in the spring.

BASKETS

Strawberry baskets have gone up in price since a year ago. We have purchased a car of baskets which are available at the quoted prices. Since we purchased this car, there has been another price rise and we will have to raise prices when these are gone. We advise you to purchase your baskets as soon as possible and be assured of this price.

Quart Baskets per 100, \$2.00; per 1000, \$17.00

At farm or by express not prepaid—500 at 1000 rate.

Pint Baskets—both oblong and square per 100, \$2.00; per 1000, \$16.00

2-Quart Pansy Tills—packed 250 to a carton per 100, \$4.00; per 1000, \$35.00

4-Quart Tills—per 100 \$5.00

Also 4-quart, 8-quart and 16-quart Peach Baskets. Prices not available as this catalogue goes to press.

Description of Strawberry Varieties

All varieties except everbearers are now from Virus Free Strains

HOWARD—NO. 17 (Premier)—The earliest of our varieties—bears over a long season with large berries for the first picking and with berries growing smaller as the season progresses. A fair plantmaker—quality of berry fair to good.

SPARKLE—Mid-season—The best variety for freezing as the red color goes through the berry. Large berry—good plantmaker—good yielder.

CATSKILL—Mid-season to late—This is probably the largest of the berries which we have raised—the berry is glossy and very attractive. Good yielder and a fine plantmaker.

ROBINSON—Mid-season—This variety has small plants but will give tremendous yields of large berries under proper conditions. Good commercial berry where plants are kept thinned and ground is very rich and moist.

FAIRFAX—A good home berry. The sweetest of all varieties with real dark berries. Fairly good yields.

VERMILLION—Large glossy red berries—very attractive fruit—good plantmaker.

EMPIRE—This is a newer variety which is a good plantmaker and gives good yields of very large berries—advertised by some growers as producing "plum" sized berries. Cold Storage plants only of this variety.

PRICE OF STRAWBERRY PLANTS LISTED ABOVE

25 for 75c — 50 for \$1.50 — 100 for \$3.00 — 300 to 700 @ \$2.50 per 100
— 1,000 for \$20.00 — 3,000 or more @ \$18.00 per 1,000.

For Prepaid Orders by Mail—Add 20% for Packing and Postage

NEW VARIETIES

Here are two new varieties which we feel may be worthy of a trial in your garden:

JUMBO—A very large, deep red berry which is rated as excellent for freezing—it is a very sweet berry.

PAYMASTER—A mid-season berry of which some very wonderful yields have been reported. A nice glossy berry. Prices 25 for \$1.00; 100 for \$4.00

EVERBEARING STRAWBERRIES

Strawberries of the everbearing varieties may be planted this spring and will start to bear fruit about the middle of July and will bear continually until cold weather arrives.

Everbearing varieties of strawberries do not make very many new plants and we recommend that all runners be kept picked off so that all the strength will go into the fruit. It is also recommended that some type of mulch be placed around each plant so that the berries will be clean.

Everbearing strawberries, planted this way, will not bear the great amounts of berries next June that the regular varieties do so we recommend that not more than one-third of your bed be of everbearing varieties.

SUPERFECTION—This is one of the standard varieties of everbearers and will give you a nice crop of good sized berries.

20TH CENTURY—A new variety with us. We hope that it will yield better than the Superfection, but we do not know for sure at this time.

Price of 20TH CENTURY and SUPERFECTION EVERBEARING PLANTS
—25 for \$1.00; 50 for \$2.00; 100 for \$4.00. For prepaid orders by mail add 20%.

RED RICH—Everbearers

This is probably the best of the everbearing varieties of strawberries. The berries are very large, glossy red and have a very nice flavor. Yields of berries from Red Rich are very good.

We expect to have an ample supply of Red Rich on hand at our nursery this spring both for our cash and carry trade and for mail orders.

RED RICH Prices—Prepaid or at the Nursery: 12 for \$2.95; 25 for \$5.00;
50 for \$8.50; 100 for \$15.00.

POWER LAWN MOWERS

If you are in the market for a new lawn mower this spring, it will pay you to look over our assortment of mowers and compare our prices with others before you buy.

MOTOMOWER "CATALINA"—This is our most popular mower. It is an 18-inch rotary mower, with a Briggs & Stratton engine, automatic rewind, silent muffler, easy changing height adjustment and has off-center wheels to prevent scalping of lawns. Our price—Only \$79.50

MOTOMOWER "CORSAIR"—The same mower with 21-inch cutting width — Our price — Only \$89.50

MOTOMOWER "RIVIERA"—Very similar to the Catalina listed above, except that this mower is self-propelled—Our price — Only \$108.50

MOTOMOWER "CONSTELLATION"—A self-propelled 21-inch rotary — our price — Only \$128.50

Also—A 2 cycle rotary for those who want a real low priced mower. Will give good service and starts easily. Only \$59.95

A RIDING ROTARY—New this year. Look it over. Price \$225.00

GARDEN TRACTORS

ROTARY TILLER—15-inch width—B&S engine—Only \$123.50

Also a complete line of PLANET JUNIOR TRACTORS

BIRD BATHS—tan and white colors—from \$5.00 Up

PYRAMID STRAWBERRY GARDENS—will hold 50 plants \$8.95

WHEELBARROWS—all steel, semi-pneumatic tires—not assembled \$8.45
Assembled \$8.95

Also a complete line of the better Garden Tools—such as Pruners, Clippers, Hoes, Shovels, Hedge Trimmers, Garden Hose, Grass Barriers and other items too numerous to mention.

FERTILIZERS

We carry at our garden store a great variety of fertilizers for every purpose. Listed are a few that we can recommend.

Rose Food 5 lbs. 65c; 10 lbs. \$1.00

Acid Maker—(aluminum sulphate) 5 lbs. 75c

Acid Fertilizer 5 lbs. 60c

Hydrate Lime—for lawns 50 lbs. 90c

Bone Meal 5 lbs. 60c; 10 lbs. \$1.00; 25 lbs. \$2.00; 100 lbs. \$5.00

Scott's Turf Builder—one 50 lb. bag used twice yearly on 5000 sq. ft. of lawn will keep grass green and healthy—Price Per Bag \$4.50

Cow Manure—dehydrated, pulverized 5 lbs. 50c; 50 lbs. \$2.25

Sheep Manure 5 lbs. 50c; 50 lbs. \$2.00

Garden Fertilizers 5 lbs. 50c; 10 lbs. 90c; 25 lbs. \$1.65; 50 lbs. \$2.50

Commercial Fertilizers—This is the brand which we use on our own farm and find it very satisfactory.

CORENCO—5-8-7 Garden Fertilizer—80 lbs. \$2.25

5-10-10 Potato and General Purpose—80 lbs \$2.40

We will be glad to quote on ton lots of these and other analysis fertilizers on request.

GARDEN SUPPLIES

AIDS IN STARTING PLANTS

| | | | | | |
|---|---------|----------|--------|---------|--------|
| Vermiculite—to start seeds in—1 peck bag | 45c; | 3 pecks, | 85c; | 4 bu. | \$2.20 |
| Rootone—a hormone to aid the rooting of cuttings—pkg. | 25c and | \$1.00 | | | |
| 5% DDT—for treating bulbs | 1 lb. | 45c; | 5 lbs. | \$1.15 | |
| Compost Maker—pkg. | | | | | \$1.25 |
| African Violet Soil | | | | 20c and | 39c |

FOR FRUIT TREES

Use a dormant spray before buds start when temperatures are 40° or higher. After buds start, use an all purpose fruit spray about once each two weeks during growing season.

| | | | | | | |
|---|--------|--------|-----|---------|------|--------|
| For Dormant Sprays—Scalecide | pt. | 65c; | qt. | \$1.25; | gal. | \$2.75 |
| Green-Gro All Purpose Fruit Spray—Contains Captan, Malathion and Methoxycylor | | | | | | |
| —the latest and best combination for a good all purpose spray | 1 lb. | \$1.35 | | | | |
| | 5 lbs. | \$3.75 | | | | |

FOR VEGETABLE GARDENS

| | | |
|--|-----------------------------------|--------|
| All Purpose Garden Dust—a combination of Captan, Malathion and Methoxycylor which seems to be giving excellent results | 1 lb. | 90c |
| DuPont Tomato Dust—2 lbs. | | 95c |
| Rotenone—for insect control | 1 lb. 35c; 5 lbs. \$1.25; 50 lbs. | \$5.95 |
| Bordeaux—for blight control—4 lbs. | | \$1.50 |
| Arsenate of Lead—poison for eating insects—4 lbs. | | \$1.35 |
| For Aphids—Black Leaf 40 | 1 oz. 35c; 5 oz. \$1.15; 1 lb. | \$2.69 |
| Malathion | 1 oz. 49c; 5 oz. | \$1.39 |

FOR FLOWER GARDENS

| | |
|--|---------------|
| Farmrite Rose Dust—contains Lindane, DDT, Ferbam and Sulphur—1 lb. | 90c |
| | 5 lbs. \$2.95 |
| DuPont Floral Dust—a good all purpose floral dust or spray duster | 1 lb. \$1.25 |
| Ortho Rose Dust—very good—1 lb. | \$1.50 |

FOR JAP BEETLE CONTROL

| | | |
|---|-----------------------------------|--------|
| Chlordane — used on ground, will kill grubs — also drives out moles | 1 lb. 35c; 5 lbs. \$1.20; 50 lbs. | \$6.00 |
| Hubbard 5—used as dust will kill Jap Beetles | 1 lb. 45c; 5 lbs. | \$1.20 |
| 50% DDT—used as spray will kill beetles | 1 lb. 90c; 4 lbs. | \$1.50 |

FOR WEED CONTROL

| | |
|---|---------------------------------|
| Scotts 4XD—box to cover 2500 sq. ft. of lawn | \$1.95 |
| In lawns—Weedone—½ pt. | \$1.00 |
| Scotts Weed and Feed—pkg. covers 1000 sq. ft. | \$1.95 |
| For Strawberry beds, lawns, gladioli beds, corn, many other crops—Crag prevents seed germination—a wonderful labor saver—2 lbs. will cover 1 acre — price | ¼ lb. pkg. \$1.50; 1 lb. \$2.25 |

SOIL BUILDERS

We recommend to build up your soil with the following:

| | |
|-----------------------------------|--------|
| Peat Humus—50 lb. bag | \$1.50 |
| Pulverized Cow Manure—50 lbs. | \$2.25 |
| Pulverized Sheep Manure—50 lbs. | \$2.00 |
| Peat Moss—LOOK AT THIS PRICE—Bale | \$3.00 |

FOR ORNAMENTALS

For the control of nearly every insect and disease which attacks your flowering shrubs or evergreen we can recommend either of the following:

| | |
|--|-------------------------|
| Isotox—good all purpose—liquid—(for Birch leaf blight)—4 oz. | \$1.00 |
| Ornamental Spray—all purpose spray—powder form—8 oz. (makes 12 gal. spray) | \$1.40 |
| Dusting Sulphur—to control Red Spider on Arbor Vitae—2 lbs. | 65c |
| Malathion—good control for nearly every insect | 1 oz. 49c; 5 oz. \$1.39 |
| Tree Paint—to cover cuts—1 qt. | 60c |

ROSES

During March and April we will have a very large selection of rose bushes on hand. Each plant will have its roots individually wrapped in peat moss and will have a large colored picture to help you make your choice. For mail orders—add 20% for packing and postage or we can ship by express collect. Our patented roses are all large No. 1 grade. The 90-cent roses are grade No. 1½. We reserve the right to substitute on mail orders after May 1.

TEA ROSES

90c

Ami Quinard—dark red
 Countess Vandall—two-toned pink
 Crimson Glory—red
 Eclipse—yellow
 Etoile de Holland—red
 Poinsetta—red
 Editor McFarland—pink
 Golden Charm—yellow
 Roslyn—yellow
 Mme. Jules Bouche—white
 Pres. Hoover—two-toned
 K. A. Victoria—white
 Talisman—two-toned
 Sister Theresa—yellow
 General MacArthur—red
 McGredy's Scarlet—red
 The Doctor—pink

PATENTED TEA ROSES

Each \$2.00

Charlotte Armstrong—red
 Diamond Jubilee—orange
 Forty Niner—red and yellow
 K. T. Marshall—pink
 Mary Margaret McBride—pink
 Mirandy—dark red
 New Yorker—red
 Lowell Thomas—yellow
 Nocturne—dark red
 American Flagship—dark red
 President Eisenhower—red
 V for Victory—yellow (sub zero)
 Fred Howard—yellow
 Rex Anderson—white

NEW VARIETIES TEA ROSES

| | |
|---|--------|
| Peace, large yellow | \$2.50 |
| Sutter's Gold, yellow | \$2.25 |
| Helen Traubel, salmon | \$2.50 |
| Chrysler's Imperial, red | \$2.50 |
| Mojave, orange rose | \$2.50 |
| Tiffany, 1955 AA Rose, clear pink | \$2.50 |
| Buccaneer, yellow | \$2.50 |
| Golden Masterpiece, yellow | \$2.75 |
| Queen Elizabeth, pink | \$2.75 |

FLORIBUNDA ROSES

Floribunda roses grow from 3 to 4 feet tall, about the same height as the tea roses but blooms are all in clusters. As a rule, the stems of floribundas are shorter than tea roses, and so not as good for cutting but the masses of bloom make them excellent for effect in your garden. All will bloom this year.

NEW VARIETIES

| | |
|-------------------------------|--------|
| Jiminy Cricket — coral orange | |
| 1955 AA Rose Award | \$2.25 |
| Circus — Multi-color, 1956 AA | |
| Rose Award | \$2.50 |

| Pinocchio—pink | | |
| Red Pinocchio—red | | |
| Summer Snow—white | | |
| Ma Perkins—coral pink | | |
| Vogue—cherry | | |
| Masquerade—multicolored | | |

CLIMBING ROSES

Climbing roses throw blooms only from the one year wood, and therefore will not bloom in any quantity during the first year. Climbing roses are very hardy and, once started, will last for many years.

CLIMBING ROSES

90c

Paul's Scarlet—nice red
 American Beauty—light red
 New Dawn—everblooming pink
 Blaze—everblooming red
 Caledonia—white
 Talisman—yellow and orange
 Golden Climber—yellow

PATENTED CLIMBING ROSES

| | |
|----------------------------------|--------|
| Cli. Crimson Glory—red | \$2.50 |
| Cli. Peace—yellow | \$2.50 |
| Dr. Nicholas—pink | \$2.00 |
| Cli. Goldilocks—yellow | \$2.00 |
| Golden Shower—1957 AA Rose Award | \$3.00 |
| Aloha—pink | \$2.50 |

POTTED ROSES—AVAILABLE AFTER MAY 1

ROSE FOOD 8-10-4

With 50% organic nitrogen for rose fanciers. Completely mineralized. 100% plant food 5 lbs. 75c; 10 lbs. \$1.40

ROSE DUST (Lebanon)

An excellent rose dust (or spray) containing Captan, Malathion and Methoryclor, to control all rose diseases and all rose pests. An excellent rose dust, and the price is right 1 lb. 90c; 5 lbs. \$2.95

RAPID GRO

One of the very best soluble fertilizers. Can be used on the ground or sprayed on the plant and will be absorbed by the leaves. Many growers mix with spray solution and spray and fertilize with same operation.

. ½ lb. 69c; 1 lb. \$1.25; 2 lbs. \$2.35; 5 lbs. \$4.50

BARCO TROMBONE TYPE SPRAYER

Drop one end of hose in pail and go ahead. Will throw 10 to 12 feet high.

Each \$5.95

BLUEBERRIES — SPRING AND FALL

Cultivated blueberries are hardy shrubs of rare beauty; they are doubly valuable because they are fruitful and ornamental throughout the entire year.

Every home garden, no matter how small, has room for at least a few of these blueberry plants. It takes only a few plants to produce all the berries that an ordinary size family will need. As a commercial proposition it is one of the most profitable fruits to grow. There is a big market for these delicious blueberries. They make good money in a very short time. You can begin picking the second or third year after planting. Plants last a very long time.

Cultivated blueberries grow in large clusters, plump, tender, and practically seedless. They will grow anywhere that strawberries will, doing their best on a moist, acid soil which is kept mulched all summer. For pollination, plant at least two varieties.

Our very low prices on large bearing age plants will give you berries years before smaller plants. We advise buying blueberry plants on a size basis.

We recommend that you plant at least two varieties. Our plants are ready during the season so you may call and pick the plants up immediately.

VARIETIES AVAILABLE

JERSEY—Large, light blue berries. The bush grows erect and is very productive.

DIXI—This is probably the largest berry of all cultivated varieties — upright growing bush.

BERKELY—One of the newer varieties which has good size and color. It yields very well.

COVILLE—Recommended as the best of the newer varieties. Berries are large, light blue and the bush has attractive leaf coloring.

PRICE—3 year plants at least 18 to 24 inches tall. Each 80 cents; 10 or more @ 75c; 50 or more @ 70c.

ASPARAGUS PLANTS

Home-grown asparagus is one of the easiest to grow and yet one of the most delicious treats available to the small gardener. Cut fresh in your own garden, it is unexcelled in flavor and quality. Start now to have a bed of your own.

Our plants, if heavily fertilized in your garden, will produce some asparagus for you the next spring. The second spring, you can cut it for about one month and after that, if you continue heavy fertilization, you can cut it up to the 1st of July each year. A bed, once started, will last as long as you take care of it.

VARIETY — MARY WASHINGTON

Heavy No. 1 Grade—25 for 75c; 50 for \$1.50; 100 for \$3.00; 500 for \$12.50; 1,000 for \$20.00. Packing and postage, add 20%.

ASPARAGUS CULTURE

Set asparagus in rich soil a foot apart in a furrow 6 inches deep. Cover 3 inches and tramp. In hoeing, work soil toward plants so that by mid-summer the ground is level. Do not cover 6 inches at first or plant will be smothered. Cut sparingly the second year, after that cut all shoots 6 or 8 inches high until about the middle of June, then let tops grow. Fertilize asparagus liberally, with stable or hen manure any time in summer or fall after cutting season is over.

RASPBERRY PLANTS

Raspberries are one of the treats available to home gardeners and will bear handsome crops if a little care is given them. Here is a crop ideal for the part-time farmer which is overlooked by many growers. Very easy to freeze.

We offer strong, well grown plants, free of disease. Start a bed now so that you can enjoy raspberries throughout the summer. Once planted, a raspberry bed is good for from five to ten years, depending on the care given it.

LATHAM (Red)—The fine old standard mid-season berry which folks have liked so well. It bears well under most any condition and is good for commercial or home gardeners. Available in transplants only.

INDIAN SUMMER (Everbearing) (Red) — This is the best of the everbearing varieties of raspberries, bearing a crop in July and another throughout the fall. Has a good size and flavor. Transplants only.

SEPTEMBER (Everbearing, Red)—This is one of the newer everbearing varieties of red raspberries which is reported to be very good. We have only transplants available. Bears in September the first year planted.

SODUS (Purple)—This is the leading purple raspberry. The berries are medium purple in color and good in quality. The plants are very productive and vigorous. No. 1 grade only.

CUMBERLAND (Black)—This variety yields well under most any condition. It has a glossy black berry of excellent quality and bears in mid-summer. Black raspberries are gaining in popularity. They can be raised at less cost than the red varieties and stand on the vines a long time without becoming soft. No. 1 grade only.

RASPBERRY PLANT PRICES

No. 1 Grade—All varieties: 6 for 65c; 12 for \$1.20; 25 for \$2.00; 50 for \$4.00; 100 for \$7.50; 1000 for \$65.00, not prepaid.

• TRANSPLANTS

6 for 75c; 12 for \$1.50; 25 for \$3.00; 100 for \$10.00.

Not sold in lots of less than 6 of one variety.

BLACKBERRIES

Blackberries grow best on fertile loam. The rows should be six feet apart with each plant approximately two feet apart in the row.

ELDORADO—This is the sweetest of all blackberries. The berries are very large, and bear in large clusters. The plants are very sturdy.

Prices 12 for \$1.00; 25 for \$2.00; 100 for \$7.00

GRAPE VINES

These are all No. 1 Grape Vines and should give you excellent results.

Concord (Blue)—The Standard blue grape.

Portland (White)—Early, large and of good flavor.

Caco (Red)—Early, fine flavor with large bunches.

Fredonia (Black)—Very early, excellent quality.

Seneca (Yellow)—California type of hardy grape. The skin can be eaten. 1 yr. No. 1.

Van Buren (Black)—Best new grape. Very sweet. 1 yr. No. 1.

Price: 40c each; 3 for \$1.00; 10 or more at 30c each; 100 or more, 25c each.

GOOSEBERRY PLANTS—Downing variety—each 60c

CURRENT BUSHES—Red Lake—each 50c
(No mail orders accepted for Currants and Gooseberries.)

FRUIT TREES

We can offer this year a nice variety of fruit trees grown for us by one of the largest nurseries in the country. All are of top quality and are graded strictly to size.

Our low overhead on our farm enables us to sell these trees at a much lower price than that quoted by most dealers. We hope that you will compare sizes and prices with other concerns and that you will come and see the trees here at our farm. These trees will be ready in our sales cellar by March 15 or before.

Each year we are sold out of some varieties early. To be sure of varieties wanted, order now and they will be saved for you.

It is possible for us to ship by parcel post, up to 10 fruit trees, by pruning to meet postal regulations. The charge for wrapping and postage is 20% of cost of trees but not less than 50 cents for an order. Large orders will be shipped by Railway Express or will be held for you in our storage. No orders will be held after May 1 unless paid for in full.

We advise that all fruit trees be planted as early as possible in the spring.

PEACH TREES — 1 YEAR

Early East—early August
 Jerseyland—early August
 Golden Jubilee—very early, yellow, mid-August
 Triogem—mid-August
 Red Haven—excellent quality, mid-August
 South Haven—mid-August

ONLY J. H. HALE REQUIRES CROSS-POLLINATION

All Peaches listed above are freestone.

SPECIAL OFFER TO COMMERCIAL GROWERS

If your total order for trees is 50 or more, we offer a discount of 10c per tree from quoted prices.

DWARF FRUIT TREES

Dwarf fruit trees are a very popular item for gardeners with a limited space. These trees grow about 8-12 feet tall at maturity and will use a correspondingly small space. Dwarf pears bear two years from planting; dwarf apples from two to four years. Our dwarf trees will be 2 years old, and 9/16 inch in caliper.

DWARF APPLES—Varieties available: McIntosh, Cortland, Red Delicious, Greenings, Yellow Delicious, Baldwin. Price—each \$2.00

DWARF PEARS—Varieties available: Clapp's Favorite, Bartlett, Seckel and Anjou. Price—each \$1.75

DWARF CHERRY—North Star, Meteor. Price—each \$1.75

ALL VARIETIES LISTED ABOVE ARE IN ORDER OF RIPENING

APPLES — 2 YEARS

9/16 inch caliper — 5 to 6 feet tall

Lodi—early August
 Red Astrachan—early August
 Early McIntosh—mid-August
 Dolgo Crab—late August
 Gravenstein—late August
 Milton—late August
 Wealthy—early September
 Red McIntosh—mid-September
 Cortland—late September
 Monroe

Double Red Delicious—late September
 Macoun—late September
 R. I. Greening—early October
 Jonathan—early October
 Turley Winesap—early October
 Red Northern Spy—mid-October

 Sheldon—very sweet—early October
 Anjou—very juicy—mid-October
 Kieffer—large yellow—mid-October

\$1.00 each
 Not Prepaid

CHERRY TREES — mazzard roots)

9/16 inch caliper — 4 to 5 feet tall

Windsor—dark red often called Oxheart—early July
 Black Tartarian—large sweet, black—early July
 Schmidt's Biggareau—large, almost black, sweet—mid-July
 Napoleon—yellow with red cheek, sweet—mid-July
 Montmorency—sour cherry, best for pies—late July

\$1.25 each
 Not Prepaid

PLUM TREES — 2 YEARS

9/16 inch caliper — 4 to 5 feet tall

Abundance—round, red, yellow flesh—early August
 Burbank—large round, reddish, purple—early August
 Yellow Egg—round—mid-August
 Stanley Prune—large, dark blue, freestone—mid-September
 Bradshaw—round, red—mid-September
 Reine Claude—round, green—mid-September
 Fellemberg—large, good canner—early October

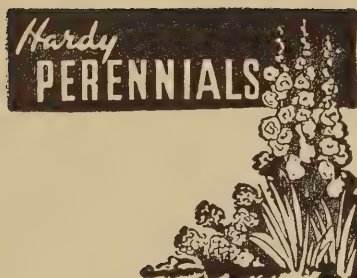

\$1.00 each
 Not Prepaid

With the exception of the Montmorency sour cherry, the fruit varieties listed on this page usually yield better when the opportunity for cross-pollination is provided by the bloom of other varieties of the same kind of fruit.

THE VARIETIES LISTED ABOVE ARE IN ORDER OF RIPENING as checked by Dr. R. H. Sudds of the University of Connecticut, who is in charge of the pomology Department.

OTHER FRUITS

5 IN 1 APPLE—9/16 inch caliper—5 to 6 feet tall. The following five varieties are grafted on one tree: Baldwin, McIntosh, Red Delicious, Yellow Delicious and Jonathan—Each \$2.00
 QUINCE—2 year—1/2 inch capiler. For old fashioned quince jelly \$1.00
 NECTARINES—two—Garden State and Surecrop—9/16 inch caliper \$1.25

Early in the season, we will have the following perennial plants ready at our retail nursery store in individually wrapped packages: Columbine, Asters, Astilbe, Canterbury Bells, Chrysanthemums, Lily-of-the-Valley, Delphinium, Fringed Bleeding Heart, Foxglove, Baby's Breath, Day Lilies, Hibiscus, Hollyhocks, Lupine, Phlox, Pyrethrum, Shasta Daisy and Dianthus.

Price: 35c each or 3 for \$1.00

These can be mailed at 3 for \$1.20 prepaid.

| Lee's Dark Purple—12 to 15 inch | \$5.00 |
| Maximum—pink—nice large clumps with 2 to 3 foot spread. Use this variety where foliage is the primary concern | \$5.00 |

POINTS ON LANDSCAPING YOUR HOME

1. Plan for year around beauty with evergreens to set off the house in winter as well as flowers for summer beauty.
2. Work out a rough plan for your home, dividing your lot into three parts, as follows—A Public area, to be viewed from the street; a Service area, for clotheslines, utilities, vegetable garden, etc.; and a Private area, for picnics and relaxation.
3. Foundation Planting—Your Foundation planting should be planned so as to provide a frame for your house. The shrubs should always be planted so as to emphasize the beauty of the house and never to obscure it. Always keep the mature height of the plants in mind. Use plants which blend well together and you may use groups of various shade or types of evergreens which appeal to you. Planting should soften the harsh corner lines of the building, give emphasis to the doorway, and make the house a part of the landscape.
4. Shade trees should be planted with their mature size in mind. Plant in front to frame the house, not to hide it.
5. Plant early blooming flowers and shrubs so that they may be seen from inside your house. Summer blooming shrubs are recommended for your picnic area.
6. A free bulletin "Landscaping Your Home Grounds" by H. O. Perkins, may be obtained by writing the University of Connecticut, or from any Extension or Farm Bureau office in the state.
7. We have a free booklet, "How to Plant", available at our nursery. Ask for your copy.

CASH AND CARRY

During the shipping season this spring we will have on hand a good variety of Evergreen Shrubbery. These will be all dug with a big ball of dirt and balled and burlapped.

It is very simple to plant Evergreens. Just dig a hole big enough to set the ball in, and cover with dirt.

You are invited to come to our farm during the season, look over our stock and take your pick.

Listed below are a few of the many bargains:

| | | |
|--|---|-----------------------|
| Golden Plumosa—15-18 inches tall—medium growing | } | \$2.00 EACH |

HOLDRIDGE'S LAWN SEEDS

These seeds are packed for us by one of the larger seed companies to our specifications and proved very popular and satisfactory during last spring and fall.
 Holdridge's Special—100% Perennial Seed—will be good for your better lawns 2 lbs. \$1.75; 5 lbs. \$3.95
 Holdridge's Quick Green Grass Seed—A very fast growing grass seed which will give you a good lawn this summer. Composed mostly of annual grass seeds 5 lbs., 1000 sq. ft. bag, \$1.75; 25 lb. bag, 5000 sq. ft. \$8.75

LAWN FERTILIZERS

Scott's Turf Builder — This is our best selling lawn fertilizer and has given such good lawns that most home owners, after using it once, continue to use it regularly every year.

10 lb. box \$1.50 — 50 lb. bag - enough for 5000 sq. ft - \$4.50.
 Corenco Turf Green—(This fertilizer contains 40% Natural Organic Nitrogen)—50 lbs. bag \$2.95
 Glorion—a combination fertilizer and soil conditioner—especially good for light sandy soils—50 lbs. \$5.95
 Fiesta—a combination fertilizer, soil conditioner, grub killer, and contains chemicals to inhibit the germination of crab grass seeds—50 lbs \$5.95
 Corenco Liquid Green—10-5-5—A quick acting liquid fertilizer which will not burn your grass—5 gallon can \$5.95
 Hose Adapter, to use between faucet and garden hose \$1.20
 Liquid fertilizer can then be put on lawn with your hose or garden sprinkler.
 Scott's Organic—100% organic—Slow acting, will not burn lawns—excellent for summer use—50 lb. bag \$4.50
